MISSION

You can impact the lives of thousands of individuals with intellectual disabilities! The mission of Special Olympics Georgia is to provide year-round sports training and athletic competition in a variety of Olympic-type sports for children and adults with Intellectual disabilities.

Since the early 1990's, Georgia chiropractors have been supporting Special Olympics athletes. As a chiropractor, you understand the benefits of sports. We welcome you to become a part of the Special Olympics movement.

This is how you can help:

- Provide free health screenings for athletes in your local community.

Example: Hold up to 20 health screenings of Special Olympics athletes –or– designate particular day(s) to conduct medical screenings for Special Olympic athletes.

- Put out a Special Olympics donation can with our brochure and collect "Change for Champions."
- Volunteer at State Games.
- Make a donation to Special Olympics Georgia.

YOUR support is needed and valued at Special Olympics Georgia. Our success would not be possible without the support of caring partners like you. We look forward to hearing from you!

Thank you in advance for your consideration!

www.specialolympicsga.org

To provide year-round sports training and athletic competition in a variety of Olympic-type sports for children and adults with intellectual disabilities giving them continuing opportunities to develop physical fitness, demonstrate courage, experience joy and participate in the sharing of gifts, skills and friendship with their families, other Special Olympics athletes and the community.

GOAL

To help bring children and adults with intellectual disabilities into the larger society under conditions whereby they are accepted, respected and given the change to become useful and productive citizens.

HEALTH SCREENINGS

To ensure the safety of our athletes, Special Olympics requires individuals to undergo a health screening by a licensed examiner. This examination is required to train or compete in any Special Olympics sport. For many of our athletes, the cost of this examination is high. We ask the chiropractor to donate their services to do health screenings for athletes.

CHANGE FOR CHAMPIONS

Change for Champions is a easy fundraiser in which canisters and posters are provided by SOGA and placed in offices for a few weeks to raise funds for year-round sports training and competition for people with intellectual disabilities.
