Special Olympics Georgia

Indoor Winter Games
Bowling

Volunteer Job Description: Below you will find the job descriptions of positions needed of our volunteers for our bowling venues. These job positions will be given to you during the general orientation, which is the first 30 minutes of your shift. Please read these over so you are aware and can potentially choose what position you would be interested in fulfilling during your shift.

Score Keeper (2 volunteers at each lane):

- Special Olympic bowling competitions are the same as bowling league competitions, meaning players will switch lanes after each turn. Volunteers will need to be cautious of this constant switching and make sure athletes are bowling at their correct turn and proper lane.
- Check athletes are using correct bowling balls
- Make sure automated scoring is working properly. If there are any issues, find volunteer coordinator for assistance.
- Volunteers can assist athletes with putting their bowling balls on their ramp, but **may not** assist in rolling the bowling bowls with them
- At the end of the 10 frames, volunteer will need to run score sheets to the person in charge of scores (Normally a SOGA staff member or Venue Director) this will be pointed out at the venue.
- Volunteer will take athletes to award area once games have been completed and scores are sent to the proper person.

Awards (3-5 volunteers):

- Assist with distributing awards, making sure enough ribbons and metals are on award tables, play music, and assist award captains/coordinators with organization of athletes in and out of the awards area.

**** All Volunteers need to help remind parents and coaches to stay behind the tables in the cheering areas while games are being played. They are not allowed on the lanes with the athletes ****
